DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services

Digital Subscriber Line Access Services provide transmission services over local exchange service facilities that can be used for simultaneous voice and data communications. Service is provided, where available, between customer designated premises and designated Telephone Company Serving Wire Centers. This service guide provides for the furnishing of service where suitable facilities are available. DSL service may not be available in all locations.

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL)

1.1.1 General

Asymmetric Digital Subscriber Line (ADSL) Access Service enables data traffic generated by a customer provided modem to be transported to a DSL Access Service Connection Point using the Telephone Company's local exchange service facilities. A DSL Access Service Connection Point is an interconnection point designated by the Telephone Company that aggregates data traffic from and to Telephone Company ADSL-equipped Serving Wire Centers (SWCs). The DSL Access Service Connection Point may be located within the operating territory of the Telephone Company for connections to Special Access Services, Frame Relay Access Service or Asynchronous Transfer Mode Cell Relay Access Service (ATM CRS). At the DSL Access Service Connection Point, the customer's ADSL Access Service must be connected to a telecommunications service provider's customer designated premises using the Telephone Company's Special Access service, Frame Relay Access Service or ATM-CRS.

When the DSL Access Service Connection Point is located within the Telephone Company's operating territory, the customer's ADSL Access Service must be connected to a single telecommunications service provider's (TSP's) customer designated premises using either the Telephone Company's Special Access Services, Frame Relay Access Service or ATM-CRS.

When the DSL Access Service Connection Point is located in the operating territory of another telephone company, the customer's ADSL Access Service must be connected to a single TSP's customer designated premises using equivalent frame relay access service provided by the distant telephone company, or special access service provided by the distant telephone company.

ADSL Access Service is available as two service options, i.e., ADSL Voice-Data and ADSL Data-Only.

- (A) The ADSL Voice-Data option provides transmission of data signals at a peak data transmission speeds of 512 kbps upstream and 1.544 Mbps downstream using the Telephone Company's existing local exchange service line. This option may be used for simultaneous voice and data communications.

DSL SERVICE GUIDE

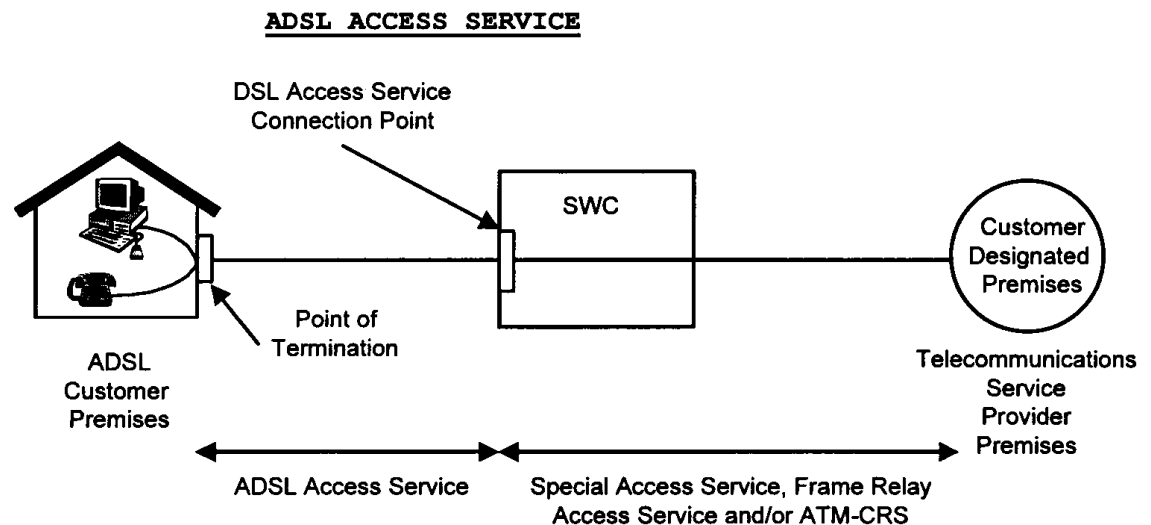

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.1 General (Cont'd)

- (B) The ADSL Data-Only option provides transmission of data signals at peak transmission speeds of 512 kbps upstream and 1.544 Mbps downstream using the Telephone Company's existing local exchange facilities. This option does not provide the ability to transmit voice communications.

A generic view of how ADSL Access Service could be interconnected with a TSP's network is depicted in the figures following. In the following example, the customer's ADSL-equipped Serving Wire Center and associated DSL Access Service Connection Point are located in the same office within the Telephone Company's operating territory. The ADSL Access Service customer orders ADSL Access Service pursuant to the provisions specified in this section. The ADSL Access Service customer's TSP orders Special Access Services, Frame Relay Access Service and/or Asynchronous Transfer Mode Cell Relay Access Service (ATM-CRS) to connect its customer designated premises to the DSL Access Service Connection Point.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.2 Limitations

ADSL Access Service is available as two service options as described previously. ADSL Access Service is at a maximum upstream speed of 512 kbps (i.e., from the customer's equipment up to the DSL Access Service Connection Point) and a maximum downstream speed of 1.544 Mbps (i.e., from the DSL Access Service Connection Point down to the customer's equipment). These peak speeds are not guaranteed by the Telephone Company due to factors that may affect the actual speeds delivered, including the ADSL Access Service customer's distance from the Telephone Company Serving Wire Center, condition of the existing local exchange service facilities, and any capacity limitations in the TSP's network design.

The Telephone Company does not provide customer premises equipment (CPE) in conjunction with the ADSL Access Service offering.

ADSL Access Service may not be used in conjunction with multi-point Special Access Service configurations.

ADSL Access Service will be furnished where suitable facilities exist as determined by the Telephone Company. The Telephone Company will identify its ADSL-equipped Serving Wire Centers, DSL Access Service Connection Point Serving Wire Centers, and, if applicable, DSL Transport Hub Serving Wire Centers in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. Tariff F.C.C. No. 4.

ADSL Access Service will be provided over existing Telephone Company local exchange service facilities. When the customer orders the ADSL Voice-Data option, the rates and regulations for ADSL Access Service are in addition to any rates and regulations that apply for the associated local exchange service line provided under the terms and conditions in the Telephone Company's general and/or local exchange service tariffs. The Telephone Company will automatically disconnect the ADSL Access Service Voice-Data option when the associated local exchange service line is disconnected for any reason.

Rates and regulations for Special Access Services, Frame Relay Access Service and Asynchronous Transfer Mode Cell Relay Access Service provided under this tariff will apply for the access service(s) provided between the TSP's customer designated premises and the DSL Access Service Connection Point.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.3 Undertaking of the Telephone Company

The Telephone Company will provide ADSL Access Service at rates and charges as set forth in Sections 1.3, 1.4, and 1.5 as follows:

- (A) The Telephone Company will determine if the associated local exchange service line is suitable for use with ADSL Access Service. Service will not be provided on lines that the Telephone Company determines are not suitable for ADSL Access Service or on lines that produce interference with other services provided by the Telephone Company.
- (B) The Telephone Company, after determining if the local exchange service line is suitable for ADSL Access Service, will notify the customer if any additional CPE is necessary to support ADSL Access Service.
- (C) The Telephone Company will provision and maintain ADSL Access Service from the DSL Connection Point to the Point of Termination at the customer's premises.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.4 Obligations of the Customer

In addition to the regulations described in other sections of this tariff, the following provisions apply to ADSL Access Service:

- (A) The customer is responsible for providing the Telephone Company with the necessary information to provision ADSL Access Service (e.g., customer name, telephone number and premises address; billing name and address when different from the customer name and premises address; its Internet Protocol (IP) address; and the contact name and telephone number of the telecommunications service provider with which the customer's ADSL Access Service will interconnect).
- (B) The customer is responsible for providing and maintaining all required customer provided equipment (CPE), which is compatible with ADSL Access Service and complies with the standards specified in Technical Reference ANSI T1.413-1998 except as otherwise specified in 1.1.6, following.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.5 Rate Regulations

This section contains the regulations governing the rates and charges that apply for ADSL Access Service. Regulations governing the rates and charges for the Special Access Services, Frame Relay Access Service and Asynchronous Transfer Mode Cell Relay Access Service provided under this tariff used in conjunction with ADSL Access Service. The rates for ADSL Access Service are found at 1.3, 1.4 and 1.5, following.

(A) Minimum Period

The minimum period for which ADSL Access Service is provided to a customer and for which charges are applicable is one month.

(B) Moves

A move involves a change in the physical location of one of the following:

- The Point of Termination at the ADSL Access Service customer designated premises
- The ADSL Access Service customer designated premises

The provisions for moves of ADSL Access Service are the same as those described in Tariff FCC No. 1, Section 7.2.3, except that an Access Order Charge will not apply to move orders for the ADSL Access Service Voice-Data option.

(C) Temporary Suspension of Service

When the associated local exchange service line over which the ADSL Voice-Data option is provided is temporarily suspended, the ADSL Access Service and one-half of the ADSL Line Charge monthly rate will be temporarily suspended for the time period that the associated local exchange service is suspended.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)
- 1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)
- 1.1.5 Rate Regulations (Cont'd)

- (D) Rate Categories

There are three types of rates and charges applicable to ADSL Access Service. These are a monthly rate, a nonrecurring charge and a network reconfiguration charge.

The monthly rate for the ADSL Line Charge applies each month or fraction thereof for each ADSL Voice-Data option and ADSL Data-Only option ordered by the customer. The monthly rate for DSL Extended Transport applies each month or fraction thereof for each 1.544 Mbps virtual circuit path as described in Section 1.1.5(D), preceding.

A nonrecurring charge applies for each ADSL Voice-Data and ADSL Data-Only option ordered by the customer for the installation of ADSL Access Service. The nonrecurring charge will be waived for each new ADSL Voice-Data option and ADSL Data-Only option Access Line ordered when the customer commits to retain the ADSL Access Line for a minimum period of 12 months following installation of service. If the ADSL Access Line is disconnected for any reason prior to the end of the 12-month minimum commitment period other than for ADSL option conversions as described below, the Telephone Company will bill the customer an amount equal to the waived nonrecurring charge.

All changes to existing ADSL Access Service (e.g., a change of telecommunications service provider and restoral of ADSL Access Service following a disconnect for non-payment of charges and/or a disconnect of the local exchange service line for any reason), other than changes involving ADSL option conversions, DSL network reconfigurations and administrative activities, will be treated as a discontinuance of the existing service and an installation of a new service. A non-recurring charge will apply per ADSL Access Service line for this work activity.

The Telephone Company will not bill the waived nonrecurring charge on an ADSL option conversion (i.e., replacing ADSL Voice-Data with ADSL Data-Only, or vice versa) when the customer provides the Telephone Company with 30 days notice of its intent to convert and commits to retain the new ADSL Access Service option for a new minimum 12-month period.

A DSL Network Reconfiguration Charge applies when the ADSL Access Service Customer's telecommunications service provider requests the Telephone Company's network to: 1) accommodate a change in the ADSL Access Service customer's existing IP address or 2) limit the data speed delivered over the customer's existing ADSL Access Service line. A nonrecurring charge applies for each request per ADSL Access Service line. The Telephone Company will bill the DSL Network Reconfiguration Charge to the ADSL Access Service customer's telecommunications service provider.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.1 Asymmetric Digital Subscriber Line Access Service (ADSL) (Cont'd)

1.1.5 Rate Regulations (Cont'd)

(D) Rate Categories (Cont'd)

The following administrative changes will be made without charge to the customer:

- Change of customer premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address or contact name or telephone number),
- Change of billing account number,
- Change of agency authorization that requires no changes to the Telephone Company's network,
- Change of customer contact name or telephone number, and
- Change of jurisdiction.

Rates and charges for ADSL Access Service are as set forth in 1.3, 1.4 or 1.5 following, following, when the customer purchases ADSL Access Service under the DSL Access Services Discount Pricing Arrangement described in 1.3, following. The DSL Network Reconfiguration Charge is as set forth in 1.3.1(D), 1.41.(D) or 1.5.1(D), following.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.3 DSL Access Services Discount Pricing Arrangement

1.3.1 General

The telecommunications services offered under the DSL Access Services Discount Pricing Arrangement (DPA) are provided at wholesale rates to the customer under the conditions listed below.

- (A) The customer purchases ADSL Access Service as described in 1.1, preceding, for the purpose of combining these telecommunications services with its own information service(s) to create a new retail service for sale to its end user customer(s).
- (B) In addition to the obligations specified in 1.1.4, preceding, the customer assumes the following obligations:
 - (1) The customer will deal directly with its end user customers with respect to all matters pertaining to the service provided, including marketing, sales, ordering, installation, maintenance, trouble reporting, repair, billing and collections. The customer will not direct its end users to contact the Telephone Company for any aspect of the service the customer provides.
 - (2) The customer will submit orders for ADSL Access Service to the Telephone Company in a format and manner designated by the Telephone Company.
 - (3) The customer will obtain the appropriate authorization to allow the Telephone Company to provision ADSL Access Service over the customer's end user's existing telephone exchange service line.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)
 - 1.3 DSL Access Services Discount Pricing Arrangement (Cont'd)
 - 1.3.1 General (Cont'd)

When the customer purchases ADSL Access Service under the DSL Access Services DPA, the rates and charges in 1.3.16(C) or 1.4.1(C), or 1.5.1(C) following, will apply in lieu of the rates and charges specified in 1.3.1(A), 1.4.1(A) or 1.5.16(A), following, for ADSL Access Service

Services provided under the DSL Access Services DPA are available under a Monthly Plan at the rates and charges specified in 1.3.1(C)(1), 1.4.1(C)(1) or 1.5.1(C)(1), following, or under a Term Plan described in 1.3.2, following, at the rates and charges specified in 1.3.1(C)(2), 1.4.1(C)(2) or 1.5.16(C)(2) following.

A monthly charge applies for each ADSL Access Service line covered under the DPA. A nonrecurring charge applies for the installation of each ADSL Access Service line under the DPA. A DSL Network Reconfiguration Charge would apply for each requested reconfiguration for each ADSL Access Service line covered under the DPA.

The Telephone Company will bill the customer an Access Order Charge, per order, to convert in-service ADSL Access Service lines originally purchased under the provisions specified in 1.1, preceding, to the DSL Access Services DPA, provided the customer obtains written authorization from its end users authorizing such conversions, where necessary. Per line nonrecurring charges specified in 1.3.1(C), 1.4.1(C) or 1.5.1(C), following, do not apply to conversion of in-service ADSL Access Lines to a DPA.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.3 DSL Access Services Discount Pricing Arrangement (Cont'd)

1.3.2 Term Plan

(A) Description

The Term Plan provides the customer with reduced rates based on the length of the customer's term commitment and its selected pricing option. The Term Plan is available for terms of one or three years with a choice of three pricing options. The Telephone Company will establish a Term Plan for each Serving Wire Center (SWC) based on the customer's order notifying the Telephone Company which ADSL-equipped SWC(s) the customer wants included in the plan(s) and the selected term commitment and pricing option for each SWC. An Access Order Charge applies for each order to establish the Term Plan(s).

When the customer subscribes to a Term Plan, all in-service ADSL Access Service lines provided out of and subsequently installed at the included SWC will be billed the rates and charges specified in 1.3.1(C)(2), 1.4.1(C)(2) or 1.5.1(C)(2), following, for the length of the term commitment. In addition to the applicable ADSL Line Charges, the customer will be billed a recurring monthly Term Plan Charge for each SWC included in a Term Plan, as specified in 1.3.1(C)(2)(a), 1.4.1(C)(2)(a) or 1.5.1(C)(2)(a), following based on its selected pricing option.

If the Telephone Company decreases the applicable rates for Term Plan service during the term of a commitment period, the decreased rates will automatically be applied for the remainder of the current commitment period.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)

1.3 DSL Access Services Discount Pricing Arrangement (Cont'd)

1.3.2 Term Plan

(A) Description (Cont'd)

At the end of the Term Plan, the customer may elect to establish a new Term Plan commitment, convert to the rates available under the Monthly Plan, or discontinue service. If the customer does not make an election by the end of the Term Plan, the rates for all ADSL Access Service lines will automatically be converted to the rates available under the Monthly Plan specified in 1.3.1(C)(1), 1.4.1(C)(2) or 1.5.1(C)(1), following. An Access Order Charge will not apply to any election made by the customer at the end of the Term Plan.

A Term Plan is subject to payment for early termination as described in (D), following.

(B) Upgrades in Term Plan

A customer may terminate a Term Plan without the application of a termination liability charge when the customer replaces its original Term Plan commitment with a new Term Plan commitment provided the length and pricing option of the new Term Plan commitment is of equal or greater length than the length of the original Term Plan commitment. An Access Order Charge will not apply when the customer replaces an existing Term Plan with a new Term Plan commitment under this provision.

(C) Termination without Liability

A customer may terminate a Term Plan without the application of a termination liability charge if the Telephone Company increases the Term Plan monthly rates described in 1.3.1(C)(2), 1.4.1(C)(2) or 1.5.1(C)(2), following, during the term of the existing commitment. The customer has 90 days following such rate increase to notify the Telephone Company in writing of its intent to terminate its Term Plan under this section; otherwise, the increased rates will apply for the remainder of the commitment period.

DSL SERVICE GUIDE

1. Digital Subscriber Line Access Services (Cont'd)
 - 1.2 DSL Access Services Discount Pricing Arrangement (Cont'd)
 - 1.2.2 Term Plan (Cont'd)

- (D) Termination with Liability

If the customer elects to terminate its Term Plan(s) prior to the end of the commitment period for any reason other than specified in (B) or (C), preceding, a termination liability charge will apply. For each Term Plan terminated prior to the end of the commitment period, the Telephone Company will bill the customer a charge equal to the monthly Term Plan Charge for its selected pricing option as described in 1.3.1(C)(2)(a), 1.4.1(C)(2)(a) or 1.5.1(C)(2)(a), following, multiplied by the number of months remaining in the commitment period.

Monthly Plan rates as described in 1.3.1(C)(1), 1.4.1(C)(1) or 1.5.1(C)(1), following, will apply to all in-service ADSL Access Lines following the early termination of a Term Plan.
