PRELIMINARY STATEMENT

TARIFF SCHEDULES

APPLICABLE TO

TELEPHONE SERVICE

OF

CenturyTel of North Louisiana, Inc. d/b/a CenturyLink (T)

OPERATING IN PORTIONS OF

BOSSIER, CADDO, CLAIBORNE, JACKSON, LINCOLN

MOREHOUSE, OUACHITA, UNION, WEBSTER

PARISHES

These tariff schedules have been regularly filed with the Public Service Commission of the State of Louisiana and are the effective rates and rules of this Company, and apply to intrastate services and facilities furnished within the State of Louisiana by CenturyTel of North Louisiana, Inc. d/b/a CenturyLink hereinafter referred to as the Company. (T)

Service will be furnished in accordance with these tariff schedules and no officer, employee, or representative of the Company has any authority to waive, alter, or amend these tariff schedules or any part thereof in any respect.

When services and facilities are provided in part by other companies, the regulations of the Company apply to that portion of the service or facilities furnished by it.

The service charges specified in this tariff contemplate work being performed at the customer's location during regular scheduled working hours. Work performed during nonscheduled hours will necessitate the customer paying an additional charge for such nonscheduled work.

Effective July 28, 2009, CenturyTel of North Louisiana, Inc. registered the fictitious name CenturyLink. Effective October 19, 2009, CenturyTel of North Louisiana, Inc. d/b/a CenturyTel, began operating under the name CenturyLink. As such, CenturyTel of North Louisiana, Inc. d/b/a CenturyLink hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Louisiana Public Service Commission, State of Louisiana, by or adopted by CenturyTel of North Louisiana, Inc. d/b/a CenturyTel. (N)

By this notice, CenturyTel of North Louisiana, Inc. d/b/a CenturyLink also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which CenturyTel of North Louisiana, Inc. d/b/a CenturyTel has heretofore filed with said Commission. (N)

PACKAGED SERVICES (Continued)

SIMPLE CHOICE™ ONE ⁽¹⁾ AND SIMPLE CHOICE™ TWO ⁽¹⁾ (Continued)

TERMS AND CONDITIONS

1. A customer may select an unlimited number of compatible services and features from the Features list. All terms and conditions as specified elsewhere in this tariff shall apply.
2. Nonrecurring charges as specified elsewhere in this tariff do not apply for transactions involving additions, deletions, or changes to the services/features requested as part of Simple Choice™ One ⁽¹⁾ and Simple Choice™ Two ⁽¹⁾. However, appropriate nonrecurring charges do apply for installation of, moves, and changes to the access line.
3. Customers subscribing to the Simple Choice™ Two ⁽¹⁾ may select different features for each line. All lines must be billed to the same account and located at the same premise.
4. Simple Choice™ One ⁽¹⁾ and Simple Choice™ Two ⁽¹⁾ features must be activated by the customer before they can be used without incurring usage charges.
5. All recurring charges applicable to an access line apply to Simple Choice™ One ⁽¹⁾ and Simple Choice™ Two ⁽¹⁾. Among other things, these can include but are not limited to, EAS charges, surcharges, subscriber line charges, and taxes.
6. If access line rates for residence and business service, as listed elsewhere in this tariff, increase, Simple Choice™ One ⁽¹⁾ and Simple Choice™ Two ⁽¹⁾ rates may also increase (upon Commission approval).

Effective: March 24, 2008

PACKAGED SERVICES (Continued)

(N)

PREPAID LOCAL TELEPHONE SERVICE (PLTS)

Prepaid Local Telephone Service (PLTS) is a residential payment plan where the customer agrees to pay for service one month in advance. Upon establishment of the PLTS plan, the customer will be billed for one month service. The Company will require payment of these charges prior to establishment of service. Thereafter, the customer will be required to pay one month's service on a monthly basis. Once payment for service is received, one month's service will be provisioned and is non-refundable if the customer cancels service prior to the end of the month.

A PLTS is configured as follows:

1. Voice grade residential flat rate line, or local measured service line, if available
2. All mandatory services, including extended area service, expanded local calling, etc. (all tariffed charges applicable)
3. Tone Dialing (Tariffed tone dialing/touch tone charges are applicable)
4. Ability to dial 911
5. Ability to report service problems seven days a week
6. Ability to dial CenturyTel Customer Service
7. Primary directory listing (nonpublished/nonlisted available at tariffed charges)
8. Access to Directory Assistance
9. Toll blocking/usage sensitive services blocking (tariff charges applicable)
10. Call Waiting, Caller ID, and Call Forwarding included

B. Customers who are unable to pay the required charges to maintain their present service may activate a PLTS plan, but may be required to agree to a repayment plan for their current charges.

C. New customers who do not qualify for service due to a poor credit history may subscribe to PLTS.

D. The monthly rate for PLTS shall be in addition to any surcharges and fees established or authorized by a government entity, including but not limited to 911, subscriber line charge, sales tax and municipal fees.

E. Subscribers to PLTS are required to have mandatory toll blocking and usage sensitive blocking placed on their telephone line. It is the customer's responsibility to not make or receive calls for which additional charges are billed to the customer's telephone number.

F. The Company may disconnect PLTS service, with notice, for any of the following reasons:

1. Failure to make monthly payments to maintain the PLTS balance
2. Use of the service in a manner that interferes with the service of others

(N)

PACKAGED SERVICES (Continued)

(N)

PREPAID LOCAL TELEPHONE SERVICE (PLTS) (Continued)

- G. The Company may disconnect PLTS service without notice for any of the following reasons:
 - 1. If the customer accrues new billable charges for toll or other service on their telephone bill
 - 2. Where a known dangerous condition exists
 - 3. Where service is connected without authority by a person who has not applied for the service, or who has reconnected service without authority following termination of service
- H. If the PLTS customer is disconnected due to failure to comply with any terms of PLTS, they will no longer be eligible for PLTS. The customer can return to basic local telephone service if they meet the requirements for service, including payment of outstanding essential charges if applicable and payment of a deposit if their credit history is such that a deposit would normally be required.

	Residence	Business
Per Bundle, per month	\$25.28**	\$35.93**

**Rates applicable for non-regulated High Speed Internet also apply.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI)

A. General Description

Integrated Services Digital Network (ISDN) - Primary Rate Interface (PRI) is a digital business service that provides access from a customer premises to the Company's circuit switched voice and circuit switched data, via a 1.522 Mbps central office termination and a 1.544 Mbps channel to the customer's premises. ISDN PRI service includes the transport, common equipment, local exchange switching and trunks for access to the local exchange and toll networks. ISDN-PRI and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate or terminate at the customer premises is prohibited.

Local service, including PRI and local private lines is to be used for the origination and termination of local traffic and appropriate switched interexchange traffic. The use of any local facility for the purpose of originating or terminating non-switched interexchange voice traffic is prohibited. This applies to any voice traffic including that which is converted to or from packet data for interexchange transmission

B. Definitions

1. ISDN PRI Facility and Common Equipment - This element includes the digital DS1 facility, transmitting at a rate of 1.544 Mbps, and the common equipment necessary to interface each of the 24 channels into the central office switch.
2. "B" Channel - (Bearer Channel) is a 64 Kbps digital channel capable of transporting circuit switched data and circuit switched voice. "B" channels can be dedicated to either circuit switched data (CSD) or circuit switched voice (CSV) services, or they may alternate these service types by using the Call-by-Call feature.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

B. Definitions (Cont'd)

3. "D" Channel - (Delta Channel) is a 64 Kbps digital channel used to transport signaling and control information, including out of band signaling. Where technology permits, "D" channels can be shared by additional PRIs for the same customer.
4. Out of Band Signaling - is a signaling that is separated from the channel carrying the circuit switched data and voice services.
5. Unlimited Local Usage – is an optional plan that provides a flat monthly rate for unlimited local usage on circuit-switched voice and circuit-switched data traffic.

C. Terms and Conditions

This section addresses provisioning of service, central office availability with associated charges, reselling & government entities, equipment interface specifications, contract periods, cancellation & early termination charges, service substitution, subsequent activity charges, and temporary suspension of service.

1. Provisioning of Service

- a. ISDN PRI is provisioned on a clear channel 1.544 megabit per second (Mbps) facility. The channel may be a DS1 or other suitable facility using the ISDN architecture of 23 "B" channels and one "D" channel (23 B+D) or 24 "B" channels to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. The ISDN PRI facility for all channels may be provisioned on an existing DS-3 facility at the discretion of the Company.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C. Terms and Conditions (Cont'd)

1. Provisioning of Service (Cont'd)

- b. ISDN PRI provides the capability to transport customer information in the form of circuit-switched voice or data up to 64 Kbps over any "B" channel. One "D" channel can control up to 20 PRI trunks. In these cases, a single "D" channel in one ISDN PRI trunk handles all signaling and control functions of the other trunks in the arrangement, which allows supplemental trunks to consist of 24 "B" channels.
- c. When Outward WATS or 800 Service terminates on a DSS facility, the Outward WATS and 800 Service access lines are classified as basic trunks for the application of DS1 facility and common equipment rates and charges and are in addition to Outward WATS and 800 Service rates and charges that normally apply.
- d. For ISDN PRI facilities requiring loops greater than three miles in length, an ISDN PRI loop transport rate applies per facility per mile over three miles.

(N)

Effective: September 19, 2005

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C. Terms and Conditions (Cont'd)

2. Central Office Availability

- a. ISDN PRI is provided at the option of the Company and can only be provided from digital Central Offices equipped and programmed to provide such service and the customer's serving wire center is ISDN PRI capable. The availability, functionality and capabilities of ISDN PRI features may vary by serving Central Office.
- b. If ISDN is available from a customer's normal serving central office, the customer must accept service from that office and ISDN Foreign Central Office/Foreign Exchange is not available to the customer.
- c. If ISDN is not available from a customer's normal serving central office, the Company may choose, at the Company's discretion, to provide service from an alternate (or foreign) ISDN-capable central office (determined by the Company).
- d. If this office is within the calling scope/EAS of the exchange where the customer is served, no additional charges will apply for the transport between those two exchanges in order to provide the service. However, if they are not in the same EAS area, then additional FX and/or transport charges will apply.
- e. When ISDN PRI service is provided from another central office, the customer will utilize the feature availability and dialing plan associated with that central office.

(N)

Effective: September 19, 2005

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C. Terms and Conditions (Cont'd)

2. Central Office Availability (Cont'd)

- f. When ISDN service becomes available from the customer's normal serving central office, the customer will accept a number change to a number associated with the ISDN serving central office. The customer will be subject to calling areas associated with the normal serving central office, as specified in Company's tariffs. No charge will apply to transfer the customer back to their normal serving central office as set forth above.
- g. If the customer does not wish take ISDN service from the normal serving central office after the service is available from their office, but continues to utilize service from an alternate serving central office, then additional FX and/or transport charges will apply.
- h. Each ISDN PRI trunk group is provided with one telephone number. Additional numbers may be purchased at the rates for DID service specified elsewhere in this tariff.
- i. Any services in addition to ISDN PRI services must be subscribed to under separate sections of this Tariff. Private Line arrangements or Special Access Services used to transport ISDN PRI from a foreign central office are subject to rates, rules, and conditions as set forth in the appropriate tariffs.

(N)

Effective: September 19, 2005

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C. Terms and Conditions (Continued)

3. Reselling & Government Entities

- a. Except as specified for Government Entity, ISDN PRI shall not be used for any purpose for which any consideration is rendered to pay any party other than the Company.
- b. Any Government Entity (as defined elsewhere in this Tariff) may authorize any other government entity to use its ISDN PRI. In such cases, the initial primary user will be considered the customer and will be responsible for the payment of all the incurred nonrecurring charges and monthly rates.

4. Equipment Interface Specifications

All customer-provided equipment (CPE) used to interface with ISDN PRI is required to conform with Technical Reference Specifications as used by the Company.

5. Contract Periods

- a. The minimum contract period is one month from the date service or additions to service are established and the minimum charge is the authorized rate for one month under a monthly plan or on a contractual basis. For purposes of rate administration each month is considered to have 30 days.
- b. The Company may require a contract period longer than one month at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

5. Contract Periods (Cont'd)

- c. ISDN PRI is offered on a month-to-month basis. The provision if ISDN PRI service on a month-to-month basis is dependent on the availability and capacity of Central Office facilities. Month-to-month prices will be subject to Company-initiated price adjustments.
- d. ISDN PRI is offered under a term contract. Customers may subscribe to ISDN PRI service for an extended period under a term contract which allows a customer to select a 12, 36, or 60 month contract.
- e. During the length of the selected term contract, monthly rates for service elements ordered under the plan are subject to change (increase or decrease) as Company-initiated price changes become effective. However, any price change will not cause the monthly rate for respective service elements to exceed the price that was in effect at the beginning of the selected contract term.
- f. During the term commitment period, the customer may add ISDN PRI services at the same monthly rate specified in the customer's original term commitment.
- g. Upon fulfilling the term contract period, if a customer does not elect a new Term contract and does not request discontinuance of service, service will be continued at the month-to-month rates then currently in effect. If the customer elects a new contract term, the rates and options in effect at that time would apply. No installation charges, however, will apply for service continuance whether under a month-to-month or term contract basis.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

5. Contract Periods (Cont'd)

- h. With the written permission of the Company, the obligation to pay the term contract charges for ISDN PRI service may be assumed by another customer if the service has not been terminated and if the other customer intends to continue using the service at the present location and actually continues such use. Such assumption of service does not relieve or discharge the original customer from remaining jointly or severally liable with the transferee for any and all obligations existing at the time of the transfer until the term contract is fulfilled. Service installation charges for ISDN PRI will not apply for this transference, however, other charges outlined in this Tariff may apply. A subsequent activity charge for ISDN PRI will apply if any changes are made to the configuration of the current ISDN PRI service.
- i. During a term contract period, a customer may convert to a new term contract of the same or different length if the expiration date for the new contract is beyond the expiration date or the current contract. The new term contract becomes effective upon execution. Customers may also change from a month-to-month arrangement to a term contract. No credit for months under the previous term contract or under the month-to-month plan may be transferred to the new term contract. The customer incurs no liability for the remaining months of the prior term contract since the change is not considered a termination of service. The prices applicable for the new term contract are those currently in effect at the time of transfer. No installation charges will apply for a contract change.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

6. Cancellation, Moves, & Early Termination Charges

- a. In the event a customer cancels their order for ISDN PRI service prior to the service being established, the loss on equipment and facilities in process of building or being installed, cost of installation labor, cost of removal and other expenses, not to exceed the installation charge(s), will apply.
- b. In the event ISDN PRI service is terminated by the customer prior to completion of the contract period, the customer shall be liable for early termination charges equal to all (100%) charges of the first year and one-half (50%) of any remaining term after year one. In addition to the termination charge, the customer shall also be liable for any unpaid and deferred system and line installation charges.
- c. Termination charges are not applicable to changes in the physical location of the ISDN PRI service so long as the service originates in the same serving central office area and the customer retains the current term contract or converts to a new term contract having an expiration date beyond that of the current term contract. Non-recurring charges for the re-design of the ISDN PRI service will apply. The customer will experience some down-time on the ISDN PRI service during the physical move of the transport element.
- d. Termination charges do apply to changes in the physical location of ISDN PRI when the new ISDN PRI service originates in a different serving central office area. The current ISDN PRI contract will be terminated and the ISDN PRI service provided at the new location will be treated as a new installation.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

6. Cancellation, Moves, & Early Termination Charges (Cont'd)

- e. At the option of the Company, and where technology, regulations, and availability permit, customers may elect to change the physical location of their ISDN PRI service to a different serving central office location, yet retain the ISDN PRI service out of the existing location by converting to Foreign Exchange service. Termination charges are not applicable when the customer retains the current term contract or converts to a new term contract with an expiration date beyond that of the current term contract. Non-recurring charges for the re-design of the ISDN PRI service will apply and the customer will experience some down-time during the physical move of the transport element.

7. Service Substitution

- a. A customer may establish ISDN PRI services as a replacement to similar services whether or not those services are under a term contract at the time of substitution. In either case, specific non-recurring charges associated with service substitution will apply.
- b. If the services being replaced are under a term contract at the time of substitution, early termination charges will not be applied if the customer contracts for ISDN PRI service under an equal or longer term that commences upon the delivery of the ISDN PRI service.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

7. Service Substitution (Cont'd)

c. The following services qualify as substitute services for which the aforementioned conditions will apply. Each of these services is described elsewhere in this or other applicable Tariffs.

(1) DTS (Digital Trunk Service) – including the DS-1 facility and the corresponding channel components.

8. Subsequent Activity Charge

The ISDN PRI Subsequent Activity Charge (SAC) is applicable for any changes to customer configurations after the initial installation. The SAC is applicable per occurrence and not based on the number of trunks.

9. Temporary Suspension of Service

The Company may, following five (5) days written notice, refuse to furnish, or may terminate the service and remove its equipment under the following circumstances, provided suitable notice has been given to the customer:

a. Upon the continuance of any unpaid regulated amount due for a period of five (5) days following temporary suspension;

b. Upon objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction, on the grounds that such service is, or will be, used for an illegal purpose;

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

C Terms and Conditions (Cont'd)

9. Temporary Suspension of Service (Cont'd)

- c. Upon the use of a service in such a manner that, in the opinion of the Company, constitutes abuse or fraud or may tend to injuriously affect the efficiency of the Company's plant, property, or service; or
- d. Upon a violation of any of the regulations governing the furnishing of this service.

D. Standard Features

The following features, where from a specific central office, are offered to the customer as part of the ISDN PRI service at no additional charge.

1. Caller Number Identification

Allows the caller's number, if not blocked, to be displayed on compatible CPE when an incoming call is received, including calls made to Direct Inward Dialing (DID) Service telephone numbers.

2. Caller Name Delivery

Allows ISDN Calling Name Identification with call control to send calling party information to ISDN Class II equipment.

(N)

Effective: September 19, 2005

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

D. Standard Features (Cont'd)

3. Call-By-Call Service Selection

Provides an option to the dedicated channel configuration by allowing channels to be configured to access multiple services on a per call basis. With this feature, separate facilities are not required for individual services, such as DID, DOD, WATS, 800/877/888 services, and local switched access lines; nor do services require a dedicated "B" channel.

4. Clear Channel Capability

Is a characteristic of the transmission paths on the "B" channels for ISDN PRI service that allows the full bandwidth on each "B" channel, 64 Kbps, to be available to the customer. However, depending on the telecommunications network configuration, customer information may be transmitted at either 56 Kbps or 64 Kbps.

5. "D" Channel Backup

Provides a backup "D" channel for a failed "D" channel. This arrangement can be used where multiple ISDN PRI's share a single "D" channel. A predetermined channel on another ISDN PRI automatically takes over the signaling and control functions for circuit switched data and voice calls.

6. "D" Channel Control of Multiple ISDN PRI lines / NFAS

Provides the capability for a single "D" channel to provide the signaling and control information for up to 20 ISDN PRI's. This arrangement allows the twenty-fourth channel on one or more ISDN PRI's to be available for incoming or outgoing voice and circuit switched data. This feature is also known as Non-Facility Associated Signaling (NFAS).

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

D. Standard Features (Cont'd)

7. Dedicated Trunk Groups

Allow all 23 "B" channels (24 for subsequent trunk groups where technology permits) to be used as stand alone trunk groups. Each "B" channel is capable of handling incoming or outgoing voice and circuit switched data.

8. Digital Voice Transmission

All voice calls are terminated using digital signaling.

9. Direct Inward Dialing (DID)

Permits incoming dialed calls from the exchange network to reach a specific number served by the customer premises equipment without the assistance of an attendant or otherwise provides for unique identification of the call based on digits sent to the customer premises equipment by the Central Office. ISDN PRI will out-pulse digits to the CPE which can further process the calls as desired. Additional charges found elsewhere in this Tariff will apply for the DID blocks of numbers.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

D. Standard Features (Cont'd)

10. Equal Access

Allows the customer to pre-select an inter-exchange carrier for each trunk group enabled for circuit switched data and voice services.

11. PBX Station ID Capability

Allows the station user's number (calling party) to be transmitted over the ISDN PRI "D" channel from DID equipped CPE PBXs that use the ISDN PRI service. This number is provided by the originating station and must have an associated DID telephone number working in the central office.

12. Unlimited Local Usage

Allows ISDN PRI customers to pay a flat rated monthly charge for usage. This applies only to Local Service Areas as defined in this Tariff. It does not apply to calls outside the local area which require additional charges nor can it be combined with other service packages.

E. This Section is Reserved for Future Use

F. Application of Charges and Rates

1. The rates and charges shown herein apply in addition to all other applicable rates and charges shown elsewhere in the Company's tariff.

2. Circuit Switched Voice calls will be subject to Long Distance Message Telecommunications Service charges, if applicable.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

(N)

PRIMARY RATE INTERFACE (PRI) (Cont'd)

F. Application of Charges and Rates (Cont'd)

3. Circuit Switched Data calls will be subject to Local Usage sensitive rates based on minutes of use for local and Extended Community Calling Service or Long Distance Telecommunications Service charges.
4. This service is only provided where the software has been installed in the switch where the service has been requested.

G. Charges and Rates

1.	Non-recurring Charges		<u>Install Charge</u>
a.	ISDN PRI Access Line, each ⁽¹⁾		\$1,200.00
b.	Substitutional Service Installation ⁽¹⁾		\$600.00
c.	Subsequent Activity Charge (SAC)		\$200.00
2.	Monthly Charges	<u>Access Line ⁽²⁾ each</u>	<u>Transport, each mile over 3 miles</u>
a.	Month to Month	\$995.00	\$80.00
b.	12 Month Contract	\$975.00	\$80.00
c.	36 Month Contract	\$935.00	\$80.00
d.	60 Month Contract	\$895.00	\$80.00

(1) A customer establishing ISDN PRI as a replacement for Digital Trunk Service (DTS), may pay the Substitutional Service Installation Charge rather than the standard installation charge for ISDN PRI Service.

(2) If DID and/or Answer Supervision are required additional charges from DID Service Section will apply.

MISCELLANEOUS SERVICE ARRANGEMENTS

TELECOMMUNICATIONS SERVICES PRIORITY

(N)

Description of the Service

The TSP System is a service that provides for the priority provisioning and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The TSP System applies only to NSEP services, includes local exchange service, Foreign Exchange Service, and Private Line Service and Channels, and provides the Telephone Company with a guide to the sequence in which services are to be provisioned and/or restored.

All facilities that can be identified by a unique circuit identifier can be provisioned for TSP service by the Telephone Company.

Obtaining TSP System Service

The Executive Office of the President through the TSP Program Office, is empowered with the authority to receive, evaluate and process requests for TSP services. The TSP Program Office makes the priority level assignments and issues the TSP authorization code reflecting the priority assignment associated with a request. The customer provides the TSP authorization code, in addition to all the other details necessary to complete the order to the Telephone Company to obtain TSP System service.

The TSP authorization code, assigned on a per order basis, consists of a 12-character field consisting of a nine-character control ID followed by a dash and a two-character field specifying the priority level assignment. Its structure is as follows:

TSPxxxxxn-yy

The "x"s represent a sequence of numbers unique to each TSP authorization code and the "n" is a one character alphanumeric check digit. The first "y" contains the provisioning priority level assignment and the second "y" contains the restoration priority level assignment.

(N)

Effective: October 11, 2008

MISCELLANEOUS SERVICE ARRANGEMENTS

TELECOMMUNICATIONS SERVICES PRIORITY (Continued)

(N)

Provisioning Priority

If the customer requires service within a shorter time interval than the Telephone Company can provide, and the requested service qualifies for TSP, the customer may elect to invoke National Security Emergency Preparedness (NSEP) Treatment and obtain the appropriate provisioning priority assignment from the TSP Program Office. Acceptable assignment code values are: E, 1, 2, 3, 4, 5 and 0.

The assignment of the value "E" denotes Emergency Provisioning and implies the service has the most critical provisioning requirements and the Telephone Company will respond accordingly. The Telephone Company will take immediate action to provide the requested service at the earliest possible date.

The assignment values of 1, 2, 3, 4 and 5 are treated as essential service priorities and the Telephone Company will adjust its available resources to meet the customer's requested due date. The value "0" implies no provisioning priority.

Restoration Priority

A TSP authorization code for restoration priority classifies the service as being among the nation's most important NSEP telecommunications services. The Telephone Company will restore these services before services without restoration priority assignments in the order of priority assignments. Acceptable values are: 1, 2, 3, 4, 5 or 0 with the value "1" being the highest priority.

When the Telephone Company recognizes a TSP as being out of service, unusable or receives a trouble report, available resources will be dispatched to restore the service as quickly as practicable. A priority value of 1, 2, or 3 requires dispatch outside normal business hours if necessary to restore the service. A priority value of 4 or 5 only requires dispatch outside of normal business hours if the next business day is more than 24 hours away. If the value "0" has been assigned, then no restoration priority is applicable to this service.

The minimum period for service is one month.

MISCELLANEOUS SERVICE ARRANGEMENTS

TELECOMMUNICATIONS SERVICES PRIORITY (Continued)

(N)

Obligations of the Customer

In all instances, the customer is responsible for obtaining the appropriate TSP authorization code and providing that code to the Telephone Company.

The TSP System service customer must also be the customer for the facilities with which TSP service is associated. Only the customer is allowed to order TSP System service.

All points of a multipoint service configuration must have the same restoration priority assignment and must satisfy the requirements of that assignment. In obtaining TSP System service, the customer consents to the release of certain information by the Telephone Company to the federal government in order to maintain and administer the TSP System. Such information includes: the customer's name, telephone number and mailing address, the TSP authorization code and the circuit or service ID number associated with the National Security Emergency Preparedness (NSEP) service.

When a customer invokes TSP Treatment, the Telephone Company will attempt to notify the customer of expected charges. However, the customer when invoking TSP Treatment must recognize that quoting charges beforehand may not be practicable. Therefore, the customer grants the Telephone Company the right to quote and bill charges after the provisioning of the service.

During certain emergencies, the customer may request TSP assignments verbally and the Telephone Company will accept such verbal notification. The customer must submit a written order to the Telephone Company within two working days following the verbal request. If the written order is not received within two working days, all applicable rates and charges accumulated to date to provision TSP System service, become immediately due and payable and the requested TSP priority is revoked.

The customer must request and justify revalidation of all priority level assignments at least every two years as required by the TSP Program Office.

Additionally, the NCS Manual 3-1-1, "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service User Manual", dated May 5, 2000 prescribes specific conditions which warrant TSP Treatment and related procedures.

(N)

Effective: October 11, 2008

MISCELLANEOUS SERVICE ARRANGEMENTS

TELECOMMUNICATIONS SERVICES PRIORITY (Continued)

(N)

Obligations of the Telephone Company

The Telephone Company will allocate resources to ensure best efforts to provide National Security Emergency Preparedness (NSEP) services by the time required.

The Telephone Company will work TSP System services in the order of their priority level assignments. The priority sequence is as follows:

- Restore TSP services assigned restoration priority 1
- Provision TSP services assigned restoration priority E
- Restore TSP services assigned restoration priority 2, 3, 4 or 5 and
- Provision TSP services assigned provisioning priority 1, 2, 3, 4 or 5.

The Telephone Company will work cooperatively with other providers of TSP service when only a portion is provided by the Telephone Company to ensure "end-to-end" service.

Additionally, TSP System service will be provided in accordance with the guidelines set forth in NCS Handbook 3-1-2, "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook" dated December 10, 2000.

Rates and Charges

The following rates and charges are in addition to all other rates and charges that may apply for services offered under this tariff which operate in conjunction with the TSP System.

Establishment of TSP System Service

The establishment of TSP System service charge is a nonrecurring charge (NRC) which applies when an access line and/or circuit is ordered. If both (provisioning and restoration) are ordered at the same time, only one NRC is applicable. The NRC is also applicable for orders changing priority levels. There is no charge to remove a TSP assignment.

	Nonrecurring Charge
Per Access Line/Circuit	\$15.00

(N)

MISCELLANEOUS SERVICE ARRANGEMENTS

TELECOMMUNICATIONS SERVICES PRIORITY (Continued)

(N)

Rates and Charges (Continued)

Provisioning Priority

There are two basic levels of priority provisioning, Emergency (provisioning priority "E") and Essential (provisioning priority 1, 2, 3, 4 or 5).

(1) Emergency Provisioning

The Telephone Company will take immediate action to provide the requested service at the earliest possible date.

The Telephone Company will adjust its available resources to meet the customer's requested due date.

Restoration Priority

Restoration Priority is a monthly rate per access line and/or circuit for the ongoing administration and maintenance of the TSP System. This monthly rate only applies for all restoration circuits or lines.

	Monthly Rate
Per Access Line/Circuit	\$5.00

(N)

MISCELLANEOUS SERVICE ARRANGEMENTS

(N)

RESIDENCE CUSTOMER REFERRAL PROGRAM

- A. Existing residence customers may be eligible for a one-time \$50 bill credit when they submit a referral via the Company's Internet website that results in the establishment of a new customer account for service that includes residential local exchange service. To be eligible, referred customers must establish a new customer account for service that includes residential local exchange service, and provide the Company with the billing account number of the Company's existing referring customer who generated the on-line referral under this program. Once confirmed, this one-time \$50 bill credit will be applied to the referring customer's account within sixty days. This bill credit is limited to one bill credit per customer referral and unused credits will roll over to future months. Each customer is limited to a maximum of \$600 in referral credits per calendar year.
- B. New residence customers may be eligible for a \$10 bill credit for six consecutive months. To be eligible, referred customers must establish a new customer account for service that includes residential local exchange service, and provide the Company with the billing account number of the Company's existing referring customer who generated the on-line referral under this program. Once confirmed, the \$10 bill credits will be applied to the referred customer's account during each of the referred customer's first six bill cycles with the Company. If the referred customer discontinues the local exchange service prior to the end of the six month period, no additional credits will be applied although the referred customer will not be required to refund the Company for previously acquired bill credits.

(N)
