PO Box 7854  
Madison, WI 53707-7854

RE: CenturyTel of Northwest Wisconsin, LLC

Dear Mr. Evenson:

The following tariff sheets for CenturyTel of Northwest Wisconsin, LLC, Utility No. 5530, are being filed via the PSC Electronic Regulatory Filing (ERF) system for consideration for approval by the PSC.

Type of <u>Tariff</u>	<u>Description of Tariff</u>	<u>Tariff Section #</u>	<u>Tariff Page #</u>	<u>Replaces Am.#</u>	<u>PDF Page #</u>
General	Misc. & Supp. Equip. & Svc.	14	11	632	130
General	Custom Calling Svc.	15	1.2	207	133
General	Custom Calling Svc.	15	1.3	636	134
General	Packaged Services	28	12	-	-

The purpose of this filing is to introduce a new Outbound Call Block feature and a Pure Bundle package, as well as grandfather the Emergency Line service. Amendment #656 has been assigned to this filing. CenturyTel of Northwest Wisconsin, LLC, respectfully request that this change become effective August 1, 2009.

If you have any questions concerning this filing, please contact Tina Manning at the above address or e-mail at [tina.manning@centurytel.com](mailto:tina.manning@centurytel.com). Tina's contact number is 318-388-9857.

Sincerely,

---

Chantel Mosby  
Director, Tariffs and Compliance

## CUSTOM CALLING SERVICES

## B. FEATURES (continued)

12. Cancel Call Waiting (T)  
This feature permits the customer to cancel Call Waiting before or during one telephone call. Call Waiting will be restored when the customer hangs up. The customer must have Three-Way Calling to activate Call Waiting during a call. Cancel Call Waiting is included at no additional charge with Call Waiting.
13. Home Intercom (T)  
This feature allows a customer to communicate between telephone instruments connected to the same single-party access line. The customer dialing a Home Intercom code and the telephone number hears a busy signal. After hanging up, all telephones on the line ring. When any telephone on the line is picked up, the ringing stops, letting the customer know the call has been answered.
14. Make Set Busy (T)  
This feature allows customers to make their telephone lines appear busy to all incoming calls.
15. Wake Up Service (T)  
This feature permits the customer to program a request for a wake up call at a preset time within the next 24 hours. Wake Up Service is activated or deactivated by dialing appropriate codes.
16. Outbound Call Block (N)  
Outbound Call Block is a service that blocks all outbound dialing with the exception of abbreviated dialing for 911 (Emergency Reporting Services) and 711 (Service for Telecommunications Relay Services). In addition, all pay-per-use features are blocked. All other Custom Calling features are prohibited with the use of this feature and lines with this feature will not have a directory listing. Outbound Call Block feature is subject to the availability of facilities and is only available to One-Party Flat Rate Local Exchange Service for residential customers. (N)

C. RATES AND CHARGES

1. The following rates are in addition to the rates and charges for all services or equipment with which the custom calling services are associated. Nonrecurring charges as shown in Section 2 of this tariff apply.
2. A Service Order Charge and a Central Office Connection Charge are applicable when adding Custom Calling Service(s) to an existing access line. These charges are waived for a period of sixty (60) days after a Central Office is equipped to provide Customer Calling Services.
3. Certain Custom Calling Services are available on an optional usage sensitive basis to customers who do not subscribe to the feature on a monthly basis. Such features are available on a usage sensitive (per activation) basis. A successful activation occurs when the customer dials the feature code and is successful in reaching another properly equipped central office. The customer will be notified, via an intercept message, when an activation is not successful.
4. These features will be available on a usage sensitive basis only from equipped central offices to residence and business customers. However, these features are not available on a usage sensitive basis to Centrex, key or PBX customers.
